

PE & ABS TUBING & FIFO RACKING

» PE & ABS TUBING & FIFO RACKING

Polyurethane Tube is also known as PE Tubes. It has rubber-like flexibility & a high degree of resilience and durability. PE tube is better than most other thermoplastics tubes due to its excellent weathering characteristics with good chemical resistance. It shows exceptional resistance to most oils, gasoline's, kerosene and such other petroleum-based chemicals. It is also known as PER tubing or PER hose and is an ideal choice for Pneumatic lines/airlines. PE tube is most suitable with Push-On Fittings also known as Instant Tube Fittings or Push-in-Type Fittings. It is equally compatible with brass or aluminium type fittings. PE tubes can be fitted well with quick-release couplings - QRC.

PE tube and PE braided tube are offered by us as per the user's requirements and suggestions with industrial features and technical supports. SP Engineers is certified and authorized to deliver efficient and performance oriented tubes with minimum maintenance investments.

➤ ABS/PE COATED TUBES

The Coated Pipe is a product developed to serve the Automobile and Material Handling industry. The Steel Pipes are of different diameter and thickness ranging from 0.8 to 2mm. The Steel Pipes are coated with different resins mainly ABS, PE depending on the customer requirements. This makes the steel pipe rust resistant and more durable to use.

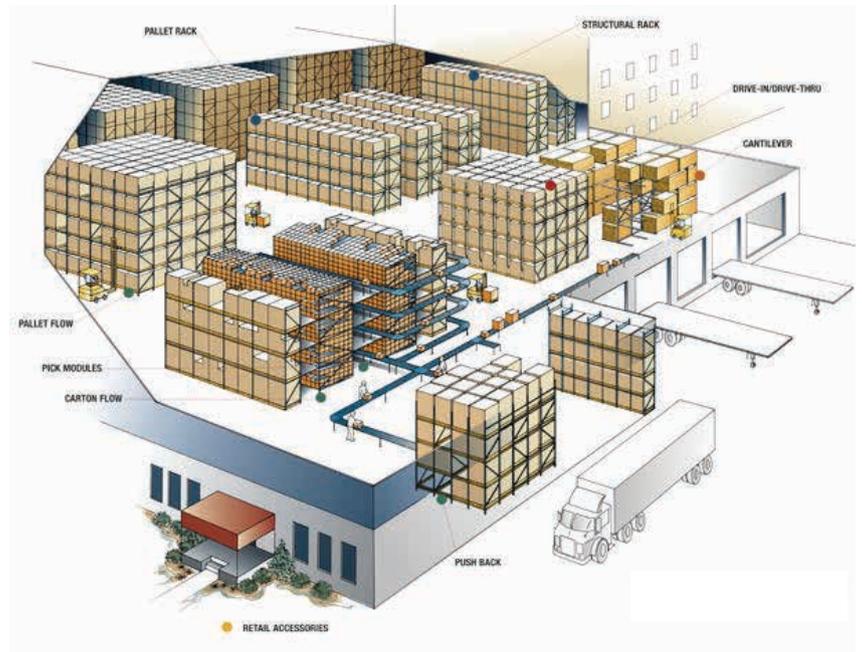

FEATURES

- Available in Various colour
- Excellent Durability
- Light and Strong
- Low Cost
- Impact Resistance
- Easy to cut

PRODUCT DETAILS			
Steel Pipe Size (mm)	Coating Thickness (mm)	Coated Pipe Diameter (mm)	Length (meters)
15.88	1-1.5	18-19	4 to 6
19.04	1-1.5	21-22	4 to 6
21.3	1-1.5	23-24	4 to 6
25.44	1-1.5	27-28	4 to 6
28.58	1-1.5	30-31	4 to 6
31.75	1-1.5	33-34	4 to 6
38.1	1-1.5	40-41	4 to 6
40	1-1.5	42-43	4 to 6
Colour Shades - Black, Ivory, Yellow, Blue, Green, Red			

» ADVANTAGES-FIFO RACKS

- Increase ware House Space
- Warehouse operations are more streamlined
- Keeps stock handling to a minimum
- Enhanced quality control
- Warranty Control
